

## OTTO Product Change Notification

<b>CHANGE NOTIFICATION #:</b>	7132020
<b>ISSUE DATE:</b>	July 17, 2020
<b>PRODUCT(S) AFFECTED:</b>	T1, T4, T5, T8 Mini Trim Switches with 11/16-27 thread
<b>EFFECTIVE DATE:</b>	March, 2019

Dear Valued OTTO Customer:

The purpose of this notification is to inform you of a change to the Mini Trim product line to improve manufacturability. Please review this information in detail. Should you have any questions or require any additional information please contact your OTTO Regional Sales Manager or call us at (847) 428-7171 or email us at [info@ottoexcellence.com](mailto:info@ottoexcellence.com).

### **Description of Change:**

This notice affects the T1, T4, T5, and T8 Mini Trim products that have the 11/16-27 thread option. The thread length on the body of the switch was reduced to improve manufacturability of the part and to improve marking of the product date code. The thread length was reduced from 0.570 inches (or 14.5 mm) to 0.500 inches (or 12.7 mm).

### **Impact on OTTO Customers:**

Thread length behind panel will be slightly reduced. Customers desiring to purchase this product with original thread length must consult the factory and request a custom part number.

### **Reason for Change:**

The new design improves manufacturability of the threaded portion and allows for improved visibility of product date code.

### **Effective Date:**

The new design will be in effect as of March 2019
